Comments

13

Here comment on your overall impressions of the course and the instructor. (You might include remarks on the instructor's preparation and the organization of the course, the availability of the instructor outside of class, whether the instructor realizes when students do not understand, the clarity of explanations, whether you found the course interesting, etc. But you do not need to limit your comments to these subjects.)

(Instructor Text/Memo)

BRIAN HEPLER Instructor

- Overall Brian was a great lecturer. He communicated very clearly about mathematical concepts and was very helpful during office hours. The course content was very interesting and I felt that the course challenged me and pushed me to become a better math student. Overall, I had a very positive experience taking this course with Brian. However, grading and communication about grades have been slightly problematic. We took a midterm exam for this course in early March (before Spring break) and it has still not been graded as of May 1st.
- Lectures were great. I would've appreciated more guidance on problem sets. Ideally there would've been more homework problem sets, but alternatively some guidance on specific exercises that the instructor found enlightening would have been a great help. I felt like I didn't know what I needed to do to improve my understanding after lecture.
- Professor Hepler is quite kind. He is willing to talk about content that students are interested in. He provides great materials for students to read and watch.
